## DETAILED ACTION

### Request for Continued Examination (RCE)

The RCE filed on March 23, 2009 has been processed. A non-final follows.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 2-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Teper (5,815,665) in view of Metke (5,602,905).

Teper discloses the invention substantially as claimed (col.5, line 6 to col.6, line 33); however, Teper does not disclose an internet-access-request or mobile internet protocol. Metke teaches internet-access-request that may be used anywhere (col.1, line 55 to col.2, line 30). It would have been obvious to one having ordinary skill in the art at the time the invention was made to combine Metke within Teper to provide a cashless pay-as-you-use system that may be utilized anywhere.

***Response to Arguments***

Applicant's arguments with respect to claims 2-15 have been considered but are moot in view of the new ground(s) of rejection.
